

# IntraHydro pure

Do you have problems with bacterial or fungal diseases in your crop?

## INTRA HYDRO PURE: THE PUREST WATER FOR HEALTHY CROPS

Good water quality is very important for sustainable production and healthy crops. Pathogenic fungi, bacteria and viruses spread very easily through irrigation water and are protected inside a biofilm which will build up inside irrigation pipes. A low and continuous Intra Hydro pure dosage ensures 100% guaranteed clean irrigation systems and eliminates pathogenic bacteria, fungi and viruses at the same time.

## 5 REASONS TO CHOOSE INTRA HYDRO PURE

- ✓ Ultra stabilized hydrogen peroxide
- ✓ Removes organic biofilm in the complete irrigation system
- ✓ Kills bacteria, fungi and viruses in the irrigation water
- ✓ Safe for humans, crops, equipment and environment
- ✓ Chlorine-free water treatment

Clean and hygienic  
**100%** guaranteed

Improved hygiene =  
improved **YIELD/M<sup>2</sup>**

Better root development  
because of up to **15%  
MORE OXYGEN**  
in the water

INTRA-HYDROPURE IS REGISTERED AS BIOCIDE FOR IRRIGATION SYSTEMS AND GREENHOUSES PT02
